## Our courses include:

### Professional development

Focusing on the applications of the relevant compliance regulations, an extensive range of specialist workshops is delivered at locations worldwide and provides updates on the latest changes and developments in the profession.

#### ✔ Qualification programmes

The courses can fulfil continuing professional education (CPD) requirements and lead to qualifications in professional designations, such as the Associate of the Australasian Compliance Institute (AACI) and the Certified Compliance Professional (CCP) qualifications awarded by the Australasian Compliance Institute (ACI).

#### ✔ Education programmes

Our education programmes are designed in conjunction with leading compliance organisations and are taught by experienced practitioners to assist you in preparing for entering into the compliance profession or to enhance your existing skills that are relevant to the current needs of your business.

### Compliance technology certifications

The ComplianceDesktop® Technology Platform Users Specialist certification programme enables users to master their skills in our leading compliance technology product, the ComplianceDesktop® Technology Platform. The certification is awarded to any specialist upon completion of the programme as recognition of their mastery of the different tools and best practice techniques on the ComplianceDesktop® Technology Platform.

### Tailored in-house training

Tailored in-house training is put together after careful consultation with you to meet the unique needs of your company. We work with experienced trainers and speakers to create an optimal training solution that meets your desired outcomes and drives your business forward.
